SKILLS

Languages: Java | JavaScript | TypeScript | PHP | C++ | SQL | VBA
Frameworks & Libraries: Spring Boot | Spring Security | Spring Data JPA | React | Tailwind CSS
Databases: MySQL | Microsoft SQL Server | MongoDB
Testing: JUnit | Mockito | AssertJ
Tools: Docker | Git | GitHub | Postman | Swagger

PROJECTS

Full Stack Developer

DentalCare | *React, Tailwind CSS, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT*

- Built an appointment system where clinics manage patient records and schedules, and patients book securely online, with each appointment delivered straight to the clinic.
- Developed the backend with the **Java Spring** ecosystem, **REST APIs**, and **JWT** authentication, and built a responsive **React** and **Tailwind CSS** frontend for an intuitive booking experience.

Full Stack Developer

Roomance | *React, Tailwind CSS, Spring Boot, Spring Security, Spring Data JPA, MySQL, Redis, JWT*

- Built a booking platform where hosts manage property listings and reservations, and guests browse and book through a responsive interface.
- Developed the backend with the **Java Spring** ecosystem, **REST APIs**, and **JWT** authentication, and built a responsive **React** and **Tailwind CSS** frontend for a modern UI.

Full Stack Developer

Internflo | *HTML5, CSS3, PHP, JavaScript, MySQL, Third-Party AI & API Integration*

- Built a portal connecting University of Caloocan City students with internships that match their courses and skills, including an OJT Monitoring System for advisors to track student internships.
- Integrated third-party **APIs**, including **AI** (**NLP**) for role matching and **Google Maps** for live location search.

EXPERIENCE

System Support Associate — *August 2025 - Present*

KMBI | *MongoDB, MS SQL, Application Support, Functional Testing, Quality Assurance*

- Managed **MS SQL** and **MongoDB** databases, handling backups, data retrieval, updates, migration, and cleansing.
- Troubleshoot and resolved issues in web and mobile applications, providing **Application Support**.
- Performed **Functional Testing** and **Quality Assurance** to catch errors before release.

Excel VBA Developer Intern — *May 2024 - July 2024*

Commission on Audit | *Microsoft Excel, VBA, Excel Macros*

- Built an Excel-based financial recording system with **VBA Macros** that automates **CRUD** operations and reduces repetitive manual work.
- Designed a user-friendly Excel interface that simplifies data entry and improves encoding efficiency.

EDUCATION

University of Caloocan City - Congress — *January 2021 - April 2025*

BS in Information Systems | *Scholar*
